Coronavirus how to understand this virus?

To answer this question of how to understand this virus: You have to understand the world and know how to live. The answers to the questions do not constitute a common or natural approach. On the contrary, these days we no longer try to surprise ourselves but rather to calibrate or organize everything around us. Neither the scientists, the Doctors, the professors, the researchers and even the World Health Organization (WHO) are unable to place us on the way of the evolution of the virus and its treatment. We are unable to answer this question. The world witnesses the quarrels of the big organizations while the men die by the thousands. We then find ourselves confused when we are told: "that the Beninese and Zairian Malagasy researchers where the death rate is at the bottom of the scale are the object of self-medication. We are unable to answer when the WHO, the great organization of the world has not yet spoken. Even more than that there is added value, some things are said to be essential and others not essential. So, this period of fear, panic and anxiety forces us to put thought back at the center of our daily lives. The current situation can help us return to strong and useful things. Because it seems that we are witnessing a form of a world in the process of globalization, interdependence. How are we going to have a future world that is different?

Great Meeting: the artist Zyta speaks!

Within the framework of our monthly column, entitled big meeting, we had extended our microphone to one of the stars or the legend, to know more about its activities, its course, its past, and its present, and also its advice for the younger generation.

Elite Magazine Inter: can you please introduce yourself to our readers?

Hello to you Elite Magazine Inter! It is a real pleasure for me to appear in your Lovely magazine, which is no longer to be presented, may God bless you for the opportunity. I am very grateful for that.

I am Zyta Fleure, I am a songwriter, singer, musician and factor x semi-finalist mother of two girls Schola and Lizzy who are both musicians like me and whom I love with all my heart and we all live in London.

EMI: What kind of music do you do?

Z. F: Although I do Gospel because I am a servant of Jesus Christ woman of prayer and intercessor, as much I write Gospel songs In order to share the testimony of My conversion, because the Bible tells us that faith comes from what we hear and what we hear comes from the word of God. I urge I encourage and testify of the Kingdom of God finally to bring its light into the lives of those who listen to my songs for the salvation of their souls and for the glory of God amen. But I also write songs that talk about social facts such as

Here the star who says better.

A cantor is always next to the church!

domestic violence which is a common scourge in our current society so my goal is to denounce this scourge through my songs with a loud message because the artist that I am, represents the voice of the voiceless and what I say has impact because our leaders must begin to realize this sad and real fact finally that laws are passed in order to end it . I know that in Africa it is a taboo subject but by dint of talking about it loud and clear African leaders will end up looking into this subject. And I insist on this because I was a victim of domestic violence and I almost died my life there.

To love is to take care and not destroy your neighbor. Thank goodness because here in Europe domestic violence is considered a crime and those who abuse their partners end up in prison here. I therefore urge everyone to communicate because it is the best way to resolve a difference of ideas and also to pray and read the Bible

together. Because what is impossible for humans, is possible for God amen. The Bible tells us that a man will leave his Father and mother and become attached to his wife, and the two will become one flesh.

A look and a thought !

A look and a thought !

Great Meeting: the artist Zyta speaks!

who love me without hypocrisy, who pray for my daughters, for me and my ministry, who support me, and encourage me to move forward. God bless you too thank you because whoever waters will be watered too !!

EMI: How many CDs do you have to your credit?

Z. F: Regarding the number of CDs released, I have two CDs ready to be released and I continue to work on new songs. But I will not say more But I want to reassure my fans that I am there, they are constantly in my thoughts and I include them in my daily prayers finally God bless them. And I ask them to pray for me too because we must support each other because we are a family and love each other as God loves us without hypocrisy thank you!

EMI: Why are you far from the Ivorian community?

Z. F: As for the Ivorian community in the United Kingdom, I will be brief. May God bless those

EMI: What are your activities?

Z.F: At the moment I am doing a job that I love in my adopted country of which I am proud, as well as my country of origin the Ivory Coast which I love with all my heart I mean that I love my two countries with the same love! but I live in the UK. But I do not forget my fans in Ivory Coast and all over the world because despite everything I am the singer of everyone, and I love my fans !!!

EMI: How long have you lived in England?

Z. F: It's been a long time since I left Ivory Coast but Through social networks I am the progression of the new generation and I find that it is doing well so well done there for you !

EMI: Do you have a message to launch?

Z. F: My message is accepted Jesus because he loves you. Through his word he says come to me all of you who are tired and busy, and he will give you rest.

*Great report on the star
Zyta author artist composer!*

Zyta fleure Song, Author, artist Composer, Performer.

Zyta Fleure the star of Ivorian and English music.

Ivorian by origin but British by nationality and adopted living in London (England). I am the mother of two young and talented daughters Schola and Eli. I am the mother of the late DJ Jonathan the one to whom DJ Arafat paid tribute in his title song Jonathan. I am a singer Author Composer, performer. The gift of song and dance was passed on to me by my Papa Feu Yebe Guillaume who was one of the pillars of Trypot music. He was a good dancer and a good traditional singer. Using well-carved wood in the form of canes, he used to dance himself and his group of traditional musicians and singers in the village under the moonlight. I was present whenever they met him and his group. They also traveled a lot in the region of Guiberoua and Gagnoa to perform. So, I modernized this rhythm in the 80s finally to make it known in Ivory Coast and in all West Africa and it was an undisputed success. I am therefore the first percussionist of this Rhythm on the national and international level. I am also the First French-speaking and Ivorian singer to reach the semi-final of the singing competition called X-factor in England. Which puts me in the history of the British and Ivorian Biz show forever. I was also the one who won the price of the very first song contest organized by journalists from the paul Amewey studio on the set in Abidjan. I also won the first prize at the Colombes music conservatory organized by the town hall of Colombes in France. I also won the award for the most beautiful voice of black

women in England in 2007 voted by Here during the X-factor competition with the presenter of the program most of the audience who were in the room that day to see me sing. I sing as well in English as in French with a very varied repertory, the Gospel by my faith as a Christian but I also sing themes of the daily life, the facts of society like for example: violence in the hearths, children at risk in poor countries, wars that claim thousands of innocent victims around the

world. To attract the attention of international opinion and to question them to put an end to this, because I am one of the Artists who the voice of are the voiceless. I also sing about the family, for example unity and love in the home, peace in the world because without it nothing is possible; The whole world needs peace of unity, peace in our societies and current events etc... in fact all the subjects that concern us and are important to us in order to see positive change in a better society in which our children can live peacefully. I also collaborated musically with several artists, {artists from around the world in the studio, on stage and recorded albums. I am open to all musical collaborations if I am asked and I am ready to continue like this because music has no borders and it softens manners as they say. I also did a lot of concert here in England and also around the world.

We need love of peace of joy of unity, of hope in this world in decline and our duty as artists is to make our contribution through the gifts that God has given us. Thank you

ONG: B2LA Born 2 Live Africa

Like any Non-Governmental Organization (NGO) B2LA Born 2 Live Africa. It acts in very different fields of activity: Emergency interventions. These are direct interventions which aim to quickly help street children, orphans who are most of the time in extreme precarious situations.

B2LA is an NGO made up of 14 Members around the world. The list will be communicated very soon.

We met the president of the NGO B2LA Born 2 Live Africa, who explains why and how the idea of creating this structure came to her mind. Let's read Ms. Olga Attemene the President.

Mrs. Olga Attemene the President.

The first objective is to give shelter to street children, orphans, put them in school, give them clean clothes, give them the Love they have not received, security, health and to make them men or women of tomorrow. How to integrate them into society

Take care of children, the vulnerable give them hope, help them with training that will allow them to integrate into life Here are some donations that were offered by the NGO B2LA Born 2 Live Africa I was inspired when I saw the video where the children were sleeping at the Adjamé market, without food or clothes, I could not close my eyes. This is how I decided to

build a dormitory for his children, to school them, to allow them to have clean clothes, to give them Love, care.

Most of their funding is made up of private, individual and corporate donations. States can also participate in their financing through grants.

The beneficiary children here present!
We are looking for sponsors, All those who love children Helping us realize this wish We will come back to this in our next publications.

Here the children who have benefited from donations

EDUCATION

Education the best way to success!

Education the best way to success: here is the example of a young Ivorian resident in Paris. Let us read his journey.

Ivorian nationality Doho Srandé Hugues Evrard was born on February 24, 1991 at the CHU of Yopougon in Ivory Coast, Originally from the West of Ivory Coast more precisely from Duékoué and coming from a modest family whose father former agent customs and the housewife, he acquired a taste for port business from childhood which, over time, would migrate into a real passion. A passion that will guide him throughout his course.

Indeed, after having obtained a literary Baccalaureate at the Lycée Municipal Simone Ehivet Gbagbo in Niangon, his passion for logistics and port activities led him to integrate a BTS option Logistics in the LOKO Group, where he acquired the fundamentals of the trades of the logistics. He then made a brief stint as a TIF trainee agent at SITARAIL/ BOLLORE to immerse himself in the realities which undermine intra-community rail transport in the UEMOA area, before continuing his studies by specializing in port logistics and transport maritime.

To this end, he joined the Regional Academy of Sciences and Techniques of the Sea (ARSTM), regional institution specialized in maritime navigation and trades related to the port environment of the 15 French-speaking States of the CEMAC and UEMOA zones where he obtained his Diploma of Engineer in Management of Maritime and Port Activities (DIMAMP), with the memory theme of the impact of rail transport in the sub-regional integration of the UEMOA area.

At the expense of some hiring opportunities in Ivory Coast, he definitely opted for a deepening in supply chain management by integrating the MBA in Logistics and Supply Chain Management at the Ecole Supérieur de Gestion (ESG) in Paris, at the end from which he joined the world leader in CROWN PACKAGING packaging as a Transport Analyst intern.

Influenced by the famous economist Tidjane THIAM, a personality whose intellectual qualities he has always praised and from whom he derives his motivation, who has become a specialist in logistics transport and the supply chain, he is now questioning himself as part of a PhD in Entrepreneurship International at Horizons University on two

Mr Doho Srandé Hugues Evrard

the 'Hinterland like Mali, Burkina Faso and Niger.

His indisputable intellectual capacities will in no way dampen his motivation to contribute efficiently to the pacification of the socio-political climate of his country, Cote d'Ivoire. From May 2019, he joined the International Foundation for Human Rights and Politics (FIDHOP) as Communication Officer.

Today Hugues Evrard embodies the renewal of the new elite wave from the land of Eburnia and constitutes a value for the future for the economic development of the Ivory Coast.

Education the best way to success!

crucial points, the first of which is the development of green logistics thus transforming classic logistics into a more ecological logistics of the marine environment and the second linked to the economic downsides of monetary space (UEMOA) by positioning transport as a real economic integration tool. As such, he is more interested in the rail loop completion point project initiated by the BOLLORE group, while evaluating its economic impact not only for the coastal countries, but also for those of

Prisca Edwige Elite Magazine Inter in Paris.

COTE D'IVOIRE: FIGHT AGAINST COVID 19. Éric Bailly is donating 3,500,000 CFA to Guiglo, his region!

INTERNATIONAL BAILLY ERIC BERTRAND FLIES TO THE HELP OF PEOPLE

International footballer Bailly Éric Bertrand, who plays at Manchester United, supported Guiglo, his native region, to fight against covid19. On Wednesday April 15, 2020, Bailly Éric Bertrand provided support to the Guiglo regional hospital center, the police station and the gendarmerie brigade in said town. These three state structures received respectively 600,000f, and 200,000f for each of the last two national security services.

At the Regional Hospital Center where the ceremony began, the Director, Mr. Gbama Moïse, was surrounded by a dozen members of the nursing staff: doctors, nurses, nurses and midwives; reduced number to comply with barrier measures. The first manager of the hospital, after receiving the envelope,

The CEO of the CHR de Guiglo on his left

COTE D'IVOIRE: FIGHT AGAINST COVID 19. Éric Bailly is donating 3,500,000 CFA to Guiglo, his region!

The Commander of the BRIGADE of the Gendarmerie de Guiglo, receiving from Mr. Bailly Michel the envelope of 200,000 francs.

Expressed all his gratitude to Mr. Bailly Petaman, elder brother of Eric's father, and bearer of the good news. We all pray that the donor will have a long and successful career. He added, before concluding that its structure will make good use of this money. After the CHR, it was the police station that welcomed the delegation, which included five people. After the exchange of civilities, the head of the delegation, Mr. Bailly Petaman, explained how the police can play a very important role in the fight against the pandemic. To dissuade the population, for example, from regrouping day and night.

The Commissioner thanked the delegation and blessed the donor whose Family should be proud of their action. It is at the gendarmerie brigade that the circle will be completed. Before handing over the 200,000f envelope, the head of the delegation, Mr. Bailly Petaman, congratulated the brigade commander for his effective engagement in the fight against the pandemic. Because, he did not wait to receive kits and other endowments before undertaking the awareness campaign that led him to

In the centre and in traditional dress, Mr N ° DIAYE Momboye Thomas Chef of CANTON Glwéa Klwion and Mr Doué Edmond receive donations from the Village of Niouldé village of ERIC.

several villages in the region. It is at 1 p.m.

Petit procession entered Glwea Klwion township where Eric is native. Unlike the state structures, the two villages in the canton received food. These are rice bags and oil cartons. Everyone, from social and professional strata to communities, no one has been forgotten. In addition, in the two villages, in Beoua as in Niouldé, the head of the delegation made a real sensitization of his people. The donation is estimated at 3,500,000 CFA francs that Bailly Éric Bertrand made to his region as part of the fight against the pandemic.

United Kingdom: the association of wegnroukpahe-Uk stands out!
 The association of Wegnroukpahe-Uk flies to the aid of Duekoué hospital by delivering food donations!

Mrs. Yapi President of the Wegnroukpahe-Uk Association and the members.

The majority of some Ivorian diaspora associations make donations think of parents. Often, and as the choice of organizations or associations derives from a loved one, or family member or friend, affected by the cause defended by the association, the Wegnroukpahe-Uk did not do it in the lace as they say in Ivorian jargon they have too much "science" Donations are immeasurable so that the Director of the Duekoué hospital came out of his reserve saying this (we have received enough health donations but this is the first time that we sent them to eat be thanked).

Here representatives and donations The Wegnroukpahe association in meeting!

A good deed is what you do with a good heart. Our kindness naturally drives us, most of the time to help others. Thus, one becomes more altruistic. There are many ways to do a good deed daily and donating is one of them.

Donations Members of the Wegnroukpahe-Uk Association

Each donation is a life! Indeed, whether they are humanitarian, research or animal protection associations, their goal is the same: to save lives and make them better. By donating, you participate in these missions.

Indeed, doing a good deed is good for morale. It allows you to be proud of your actions and keep a very good self-esteem. This is normal: if you do a good deed, you are happy with yourself. You think you have helped make someone's life better and you are right!

The handing over of donations The meeting of the wegnroukpahe-Uk in bourgeois mode.

In conclusion, do not forget these words of Mother Teresa: "At the end of our days, we will not be judged by the number of diplomas received, how much money we have accumulated or how many achievements we have to our credit. We will be judged by: "I was hungry, and you fed me. I was naked and you dressed me. I was homeless and you took me in. " "

Representatives the President and her vice-president from right to left.

Aimée Letin Elite Magazine Inter in London

Meeting with Pastor Marie Ange Melin: She tells us how she was called to bring together the cantors of God!

Pastor Marie Ange Melin.

Meeting with Pastor Marie Ange Melin: she tells us how she was called to bring together the cantors of God!

Mrs. Marie Ange Melin Can you tell us a bit about yourself and your background? What was decisive for you to dedicate yourself to pastoral service until today?

I am Marie Ange, originally from Cote d'Ivoire, I am Agni Baoulé. I came here since September 1999 Yes; I am here with my family I must admit that I was a secretary in the country, and I had my own business where I cooked and decorated for weddings. When I arrived in London, I spent more time with the English speakers. God made me grateful I entered the Council, as a Chef in Cooking in a school and I won twice the prize for the best cook and worker in 2017 and 2018 Normally we prepare European food for them but I introduced the Degue jollo rice, tchepe and tomato sauce I cook for weddings and all other events, Ivorian, Ghanaian, Nigerian food. But also the decorations of the dirty rooms and sometimes you can move me outside of London for weddings or birthdays.

EMI: Are you also a pastor?

MAM: Yes, I am a pastor and cantor at the mountain of fire church in Canning Town. I preach in English.

EMI: Do you have any suggestions for the reunification of our French-speaking churches?

MAM: I am more on the English side but now that the Lord has put this program at my heart or I could bring together English and French singers I could come back to my brothers to say this is what I learned, I see myself actually like Moses in Pharaoh's house, so come learn and go give to your brothers.

EMI: What inspired you to do this program and what is it about?

M.A.M: My event is called Praise for Jesus I am on the side of English speakers but the Lord put me at heart to do this program A pastor said to me that there was a call concerning me, but that I flee this call, the problem is very simple it is because I was very ashamed, I did not really like to speak in front of people I always put myself behind to wait for people to finish singing. The Pastor always kept telling me that I have a call.

When I come for example when people sing me I always sit behind but the Pastor continued to

Pastor Marie Ange Melin

speak to me and that's how one day I sat down and I asked myself how the Lord wanted to use me and there I started to sing in the musical group pushed by the Spirit of God I thank the Lord.

From time to time I invite the French-speaking singers to join us and one day while we were singing the Lord opened my eyes and I saw a big world with a mixture of Anglo-French and it was, like I was downstairs pouring rice over this world that was picking it up and it happened several times. So, I decided to pray and after my prayer I see written in large font Praise for Jesus. <The Lord made me understand that I must bring together the Anglophones and the Francophones to sing for his glory because this year is a year of praise and worship. To say to all those who love to pray that it is in praise and worship that I will manifest myself When I understood this I started to cry telling myself that it is a heavy load for me.

But the next day Sonie Badu asked me in friendship on Facebook and he said to me you have to sing you have a ministry, you have to get up to do the work of God, So I asked him if he was going to come here if I organized a concert and I invited him, he replied yes I will come there to support you. Here at the Nestor David concert during his visit to London I then contacted some great singers from Kenya and Nigeria they all confirmed the same to me and then I contacted cantor Rossi.

When I explained this to my pastor he told me to go back to pray again that this may not be the definition of my vision but I continued to pray and things were confirmed including the birth of Praise for Jesus.

EMI: Do you have a message for the diaspora?

What I would like very much is that we are all united like the English speakers because after having lived 23 years with them I really understood that they are very united. English speakers are very united so that when a cantor makes a concert all the others come to support it and also the churches support each other a lot.

EMI: Since you had this vision, have you organized a concert with Praise for Jesus Team?

MAM: We made an inauguration in November and now we should do the first Edition in April. We have postponed this due to Coronavirus for the moment the date is not yet fixed, but we will inform you in due course.
